# Flex4apps

This is the main git repository for the [ITEA3 Flex4Apps project](#). More information can be found on the [website](#).

This project was made possible by ITEA3 and the German [BMBF](#) and Flemish [VLAIO](#) authorities.

All the documentation and howto guides in this repository can be best read at [f4a.readthedocs.io](http://f4a.readthedocs.io).

## Build status

docs passing

## Repository Overview

- docs - The main bulk of the repository. Start here when you are attempting to use the results of this project.
- src - Example code and Scripts for the various scenarios discussed in the documentation.
